

2nd MECHANOBIOLOGY SYMPOSIUM

October 12, 2019

Washington University in Saint Louis

Whitaker Hall Auditorium

9:00 AM – 6:00 PM

The perception, interpretation, and memory of mechanical forces is essential for growth and development in all kingdoms of life. This annual symposium, sponsored by the National Science Foundation, features emerging research in both plant and animal mechanobiology.

Special session:

Tribute Symposium for William C. Hunter (1946-2019)

Invited speakers include:

- **Tobias Baskin**, UMass
- **Philip Bayly**, WashU
- **Siobhan Braybrook**, UCLA
- **José Dinneny**, Stanford
- **Jay Humphrey**, Yale
- **Bryan Pfister**, NJIT
- **Adrienne Roeder**, Cornell
